1.2. Types of Links and Possible Actions

Most of the Web Site Links represent Web sites where the O'Dea Clan has agreed to exchange links because of a common interest in genealogical matters. These are listed under the heading of “Mutual Sites”.

Some Web Site Links represent Web sites which are considered to be of special interest to O'Dea Clan members. These are listed under the heading of “Recommended Sites”.

Web Site Links are ranked according to ratings that have been assigned by the O'Dea Clan Web site users. These are listed under the heading of “Top Rated Sites”.

Web Site Links are also ranked according to the number of times a link has been viewed by O'Dea Clan Web site users. These are listed under the heading of “Popular Sites”.

Once the list of Web Site Links has been displayed, the user can select a particular item of interest.

Anonymous Users can view the Web Site Links and can report a Web Site Link as a broken link but they cannot create new links. Anonymous Users can post comments about a Web Site Link.

Registered Users and O'Dea Clan Members can view the Web Site Links and can report a Web Site Link as a broken link or submit a rating (this is a number from 1 - 10, with 1 being poor and 10 being excellent) for a Web site whose link is defined on the O'Dea Clan Web site but they cannot create new links. Registered Users and O'Dea Clan Members can post comments about a Web Site Link.

Authorised users such as the Editor, the Secretary or the Webmaster can create new links by adding a Web Site Link to the set of external Web Site Links defined on the O'Dea Clan Web site.

2. Terms and Concepts

This section provides a definition of the terms and concepts used in this document.

2.1. Terms

Term	Definition
Anonymous User	A Web site user who is just visiting, i.e. a Guest.
O'Dea Clan Member	A user who has applied for membership of the O'Dea Clan and has paid the appropriate membership fee.
Broken Link	A dead link or broken link is a link on the world wide web that points to a web page or server that is permanently unavailable. The most common result of a dead link is a 404 error, which indicates that the web server responded, but the specific page could not be found. The browser may also return a DNS error indicating that a web server could not be found at that domain name. Dead links can also occur when website content is assembled, copied, or deployed without properly verifying the targets, or simply not kept up to date.
FAQ	FAQ is an acronym for "Frequently Asked Question(s)". The term refers to listed questions and answers, all supposed to be frequently asked in some context, and pertaining to a particular topic.
Forum	An Internet forum is a web application for holding discussions and posting user generated content. Internet forums are also commonly referred to as Web forums, message boards, discussion boards, (electronic) discussion groups, discussion forums, bulletin boards, fora (the Latin plural) or simply forums.
Help Desk	The Help Desk provides the users with a central point for help on various issues in using the Web site. The user notifies the help desk of his or her issue, and the system issues a Ticket that has details of the problem. This enables the Web site administrators to manage the issues through to resolution.
Home Page	The homepage (often written as home page) or main page is the front page, webserver directory index, or main web page of a website of a group, company, organisation, or individual.
Registered User	A user who has registered with the O'Dea Clan Web site by providing basic information including a userid and a valid e-mail address. There is no fee required.
